MEN'S APPAREL FOR HORSE SHOW WEAR

N anticipation of the great social affairs and the regulation with which fashion governs the course and success of the Horse Show, we have exercised discriminating care in preparing and assembling most exclusive styles for men. Men of wealth, distinction and social power acquire their aristocratic, immaculate appearance through the medium of our high grade clothes. We show the authorized styles, the little knacks and graces that only highest priced custom-made garments present, yet at a lower price than the tailors will ask. Just such styles appropriately used for Horse Show events and qualified for the most esthetic dressers. Make your wants known to us and they will be supplied in the most correct ideas in men's, youths' and boys' clothing and furnishings. We would especially like to call the attention of mothers to our Children's Department.

UNDERWEAR

"Not 'quite time for the very heavy kind of underwear and the summer weights are not heavy enough. Half of the men are wearing illfitting underwear; some don't realize it, and the others think it can't be he'ped.

We guarantee you a distinct sensation the first frosty morning you step out in one of our made-to-fit union suits-made to fic YOU The two-piece kind, too, for those who prefer them. We can please and satisfy the underwear notions and needs of every man who cills

And our sults cost no more than the other kind-\$1 00 to \$7.50 a suit.

HORSE SHOW REQUISITES

We would especially call your atten

tlon to some of the things you will

likely need for the coming Horse

UNDERWEAR

For those who demand the best underwear we bespeak consideration" for Dr. Jaeger's Sanitary Woolen System This system is the result of life-long investigations on the subject of proper clothing, made by Gust v Jaeger, a distinguished German physician All articles are manufactured of the finest and purest sheep's or camel's hair wool, without any admixture of linen or cotton and without the use of any dyes. It performs perfectly the function of all nuder-Wear-KEEPS IN THE HEAT AND KEEPS OUT THE coun, If you are subject to colds come in and let us sell you cold lusurance

HORSE SHOW HATS

Always having the welfare of our customers at heart we have received for the occasion the Horce Show Hat. It is very swell and just the thing for the Horse Show.

Come in and let us show you this nobby hat

THE PALETOT

If you would be "the glass of fashlon and the mould of form" you should by all means have a Paletot Coat. It has character and dignity and, in our line, the e is that touch of the t'bandtailored" - a made for-you-appearance—that stands the scrntiny of the most expert tailer. Most tallors hesitate about attempting a. Patetot, for its elegant simplicity is hard to attain. But our coats are tallored by men who are educated to please the most fastidious. You have no idea how this coat would blend with your evening clothes,

ONE THING WE NEED.

The greatest organization of financlers in the world-the American Rankers' Association-has Indorsed the ship subsidy idea. This has been up for discussion and in congress a number of times, and its object is to Improve American commerce, Because it has been claimed that such n move would benefit certain ship owners, many people have lost sight entirely of the Incaiculable advantnge and ben fits that would accrue to the country at large, and have opposed it, while some of those who have favored it have been greatly but

unjustly censured. The action of the American Bankers' Association, however, an association which contains some of the most patriotle and intelligent men in the country, is a victory for the silly subsidy iden. The association is non-political and non-sectarian, and embraces men from every part of the United States.

The merchant marine question is n very intricate one, and doubtless few understand it, but these bankers ure among those who do, and they say It is good. Their action came ufter a speech by Secretary of the Treasury Shaw, who among other things made plain the need of more American ships for commerce in the following words:

"We occupy the best position on the map. We have the safest and the most convenient form of money In the world We speak the language of commerce, Our farms yield gold

literally by the carload, silver hy The Paducal Sun. He train load, and there is unloaded on the shores of a single commonwealth more Iron ore than any other country produces. Our forests yield one hundred million feet of lumber for every day of the calendar year Con factorie tilli aus more finited products then all the factures of Treat Britain and Germany combine ed by more than three thousand milfions every twelve months. We transport this matchless product of farm and factory, forest and pilne, from the interior to the sea at one-third what similar services cost anywhere else hencath the skles. We carry It \$1.00 from point to point along the coast in better vessels, on quicker time and at cheaper rates than others. CFFICE, 115 South Third | Talaphone, No. 258, Itut at our coast line we are brought to an abrupt halt. Here we are no ionger independent. Our foreign commerce is four times as large as farty years ago, but we carry to our own sblps only one-third as many gross tons as forty years ago. We have, protected and encouraged every interest but our merchant marine and every protected interest has flourished. We have every facility for luternational commerce except luternational merchants, international innivers, and an international merchant marine. Shall we not have I am not urging ship subsidles, I nm speaking of results, not of methods. If we will but take advantnge of our opportunities we will send

Just a Few of Our Many Good Things

F you have called, you are already familiar with the sterling values which have attracted Paducah housewives to our store in such large numbers during the GREAT CLOSING OUT-AT-COST SALE. But we are by no means sold out. Just to show you what values we are offering in American made china come in and see the handsomely decorated 35c salad bowl you can get for 18c. We have lots of these now, as our entire stock of them has been transferred from the wholesale to the retail department. But they won't last long at these prices. So come in early. Some cake plates in the same class which have always sold for 50c, now 33c.

We were unable to cancel the orders for many of the rare and beautiful pieces of hand painted French, Japanese and Austrian china (in sets and open stock, too,) which were especially imported for the benefit of discriminating buyers at Christmas time. As there are no exceptions to our sell-at-cost rule, you have an opportunity to buy for absolutely what we paid the manufacturer. And they are exclusive patterns, too. If you buy a set no one in Paducah or anywhere else will have one just like it. That's always a pleasant feeling to the woman who loves beautiful china. And remember that it's not "too expensive to use." Come in and see it, if only for the pleasure it will give you.

B. HATFIELD, OF THE GOLDEN CROSS, TENDERS BESIG-NATION.

1', Harlingame, of Hhode Island, Meets Many Local Metabers of the Order.

Supreme Commander J. P. Burngame, of Rhode Islaml, and J. W. McCail, supremo trustee for Kenneky, met many local members of sho Golden Cross at the K. of P. hall last night, and both made good ad:h essas.

Music and refreshments containuted to the pleasure of the evening, and after refreshments, the state executive committee was called togethor, and Orand Communiter C. B. Hatfield, who had some time since tendenad his resignation, insisted on its being accepted, as he has taken a position with a life insurance company, which will prevent his attending to the lodge work properly. By agreement the resignation was deferred until last night, and the resignation was last night finally necepted, although the committee tried to Induce Mr. Hatfield to reconsider. R. A. Harmes, of Bon syllle, was

elected grand communiter to succeed Mr. Hatfield and will be intalled at Louisville Saturday. Lady Stevens, vice commander, of Earlingon, will act as grand commander antil the installation.

The supremo commander and supreme trustee are still in Paducah, and will speak in Mechanicsburg to-

MUCH PROGRESS MADE

In Affahs of the Camil, According to

Pauama, Oct. 13 .- Maj-Gen. G. W. Davis, chairman of the board of consulting engineers, in an interview esterday said he had noticed that much progress had been made in carail affairs. He found the situation very satisfactory and thought the sanitary measures enforced were bound to make both the canal zone and the terminal cities as healthy as it is possible for cities in the tropics to be. The general was gratified at meeting his numerous old Panama Triends again.

The American engineers refused to make any statements, claiming that they had not had thus to digest all the information obtained here. It is reported, however, that the discussion at the last session of the board showed that a majority, Inrluding the European engineers, favor a sca-level canal.

IS MUCH RETTER.

ATTERBURY Vs. CANTERBERRY

"The True"

"The False"

A Plain Statement of Facts in a Case of Which We Ask the Public to Judge #

WHEN MESSRS. HAYS-LEVI & CO., makers of the "Atterbury System" of clothing, appointed us their special agent fors Paducah we announced it with great pleasure. It was a compliment to this store---and our customers who make our store. It marked us as THE STORE OF FINE THINGS. This appointment created so much consternation in another clothing house that, if possible, to detract from the reputation of the Atterbury System they advertised, and continue to advertise, "Canterberry System." It is our purpose in this ad. to show that THERE IS an Atterbury System and that THERE IS NOT a "Canterberry System." We ask the public's investigation to find out the FALSE and the TRUE---to weigh the evidence herewith submitted, and if not conclusive in every way, FURTHER PROOF IS READY. We have refrained from making this statement of facts till now, because it has always been our policy "to mind our own business," but when others seek to mislead the public by deceptive advertising we take a positive stand and

SUBMIT THE EVIDENCE IN THE CASE:

A Letter from Hays=Levi & Co. Makers of the Atterbury System

We herewith submit exact copy of a letter to us from the makers of the Atterbury System, dealing with the Canterberry System and suggesting the cause of its usage:

I, M. HAYS

A. C. LEV

T. MANSFIELD

Hays, Teni & Company,

"The Atterbury System"

Clothes of Gentility

Neln Work Oct. 2, 05.

Mess. Wallerstein Bros.,
Paducah, Ky.
Gentlemen:-

In looking over the Paducah papers we notice that another firm in your city advertise themselves as agents for THE CANTERBERRY SYSTEM. On account of the similarity of this name to THE ATTERBURY SYSTEM we took it upon ourselves to make an investigation. All the information we received is to the effect that there is no such make of clothing.

If there is such a system, it is of such winor importance, that it is unknown to the clothing industry.

It is our opinion that this is an advertising trick, resorted to by the Paducah firm in order to
deceive the general public by confusing the name
"Atterbury" with "Canterberry" on account of their
similarity, thereby deriving the benefits of the
reputation of THE ATTERBURY SYSTEM.

Very truly yours,

A Letter from the Publisher of "The Clothier and Furnisher"

We herewith submit exact copy of a letter to us from The Geo. N. Lowrey Co., publishers of the official magazine of the clothing trade. It is in reply to an inquiry from us asking if there was a "Canterberry System." It is self explanatory:

CABLE ADDRESS-"CLOFUR." NEW YORK
